

Interpretive Naturalist Certification Program of Alaska

Waiver Policy

To document past experience that you wish to apply towards your certification, please use the Request for Waiver documentation form. Complete a separate form for each experience that may apply. Copy the completed forms for your records. Send the originals to the ACRE certification committee at P.O. Box 231642 Anchorage, AK 99523. The committee can then decide on the appropriate credit while you are working on your other requirements. To document past attendance at classes, you may submit transcripts instead of the instructor's signature. To document contributing work in a scientific field, you may provide a representative sample of your work, a supervisor's signature on the certification form, or a resume.

I. Orientation Workshop

There is no waiver for this workshop.

II. Education Knowledge and Techniques

Workshops

Education Delivery and Interpretation Workshop: no waiver.

Curriculum workshops: This requirement may be satisfied with documentation of attendance in one of the workshops within the past five years. For those who have had the training longer than five years ago, and are currently using the curriculum, you may receive a waiver by contacting the respective curriculum coordinator for an appointment to receive updated materials and be informed of the changes that have occurred in the curriculum.

Site Specific Training

One of the training requirements may be waived with documentation of attendance within the last two years.

Shadowing Experience

No waiver.

III. Science Knowledge

Workshop

Attendance at the Alaska Natural History Workshop may be waived with documentation of university level courses or contributing work in the subject area in the past three years. Regardless of waiver eligibility, however, attendance is highly recommended.

Science Training

Up to eight hours in each of the subject categories may be waived with documentation of attendance at workshops, training opportunities, instructional fieldtrips, credit and non-credit classes, or contributing work in the field in the past three years.

IV. Field and Laboratory Experience

Workshop

Attendance at the Field Methods Workshop may be waived with documentation of university level courses or contributing work in the subject area in the past three years. Regardless of waiver eligibility, however, attendance is highly recommended.

Field Research Project

No waiver.

V. Instruction Experience

Up to thirty hours of this requirement may be waived with documentation of instruction experience within the past two years. Documentation of hours spent instructing the specified audience groups and with more than one organization may satisfy these sub-requirements.

VI. Stewardship

Workshop

Community Leadership and Stewardship Workshop: no waiver.

Stewardship Project

No waiver.

VII. Knowledge of Local Natural Resources and Facilities

Site Orientations

No waiver.

Journal

No waiver.
